Mounting
SolarMount S-5 !

Inverters

Call for warranty information for different manufacturers.

Solar Modules

25 year manufacture warranty of solar PV panels

Become a member of the
“Green Team”

Harvesting the power of the sun with Solartech Power, solar panels.

Solar schools make excellent showcases for displaying the benefits of solar and other forms of renewable energy. Not only do they educate our children, but they also serve to teach the entire community about the benefits of solar energy. Find out what's happening with solar schools in your community. More schools are riding an eco-friendly green wave, nurturing children while saving money.

"Green Schools" Financial Options

Municipal Leasing Programs.

We not only perform a thorough economic analysis but also offer funding solutions for municipal and non-profits financing.

- Leases and loans can be made to local and state governments, i.e. public school districts, at tax exempt interest rates.
- Solar assets are acceptable for terms to 25 years with proper structuring, credit and "branded" technology.
- Accept Level or escalating payments. All rebates and REC's flow to the customers.
- Customers can accrue equity from day one. May pre-pay the obligation at any time.
- There is no consideration of ITC or depreciation. The "trade-off" is a tax free cost capital.
